Intellicene Offers a Suite of Advanced Services Tailored to Meet Your Needs.

To receive information on these services, please contact your Regional Sales Manager.

- ¹ Onsite and afterhours support may be purchased for an additional fee, please contact your Regional Sales Manager for details.
- ² Excluding Intellicene company holidays.
- ³ All calls are supported 9am - 5pm, during weekdays, from your local time zone.
- ⁴ Periodic unspecified improvements or additions to the software, including error corrections, new versions, and other changes to the software, that may be provided, but excluding any new software feature or substantial additional functionality, which in Intellicene's sole discretion, is subject to additional fees. New versions may require the procurement by customer of additional hardware, related third party software (including, but not limited to, Microsoft SQL), and/or installation and configuration services.
- The initial support term begins on either (a) the ship date of the Symphia Software, or, if shipment is not, (b) on the effective date of the purchase order and runs for twelve months thereafter.
- For each subsequent renewal support term to which customer subscribes, Intellicene may increase the annual support fee for software by no more than five percent (5%) over the annual support fee for the previous 12-month renewal support term for like software and quantities.
- Discounts do not apply to the price of any Software Support Plan.

INTELLICENE
SECURITY // EVOLVED

About Intellicene

Intellicene is a global leader in security analytics software that empowers governments and enterprises. Our open software fuses, analyzes and visualizes disparate data sets at scale to help security organizations find the needles in the haystacks. Over 1,000 government and enterprise customers in more than 100 countries rely on Intellicene's solutions to accelerate security investigations and connect the dots to successfully identify, neutralize, and prevent threats to national security, business continuity and cyber security.

Intellicene helps enterprises and governments manage complex security operations, fuse information from various sources, analyze vast amounts of data, and gain insight for better incident management, response and investigations. With our solutions, organizations can see what's happening across their operations, make quick and confident decisions for decisive actions. Powered by our Symphia portfolio of solutions, we help our customers orchestrate better outcomes to protect what matters most.
