INTELLICENE  
SECURITY // EVOLVED

## Symphia Nowforce. Manage. Mitigate. Respond.

Major events, like a pandemic or natural disaster, disrupt operating models and introduce new challenges that require organizations to address new business continuity and security concerns. Businesses and governments across the globe are adapting their security strategies and leveraging security technology in unique ways to continue protecting people, property and mission-critical operations.

As we have experienced with COVID-19, organizations across the world have rapidly implemented measures to contain the spread of the virus. The impact has been felt across every industry and has forced significant changes to operating models to maintain social distancing while continuing to function. The result is an unpredictable and widely distributed threat environment that introduces new risks. Enterprises are grappling with social, economic, geographic and regulatory implications on a massive scale.

## Security. Evolved.

With this type of rapid and extensive change, the potential for miscommunication, confusion and delays can lead to process interruption, productivity decline and increased risk to personal safety. Additionally, as situations linger, many organizations are seeing a rise in criminal activity that puts facilities, data and assets at further risk. While the challenges are complex, minimizing operational disruption can be achieved with a comprehensive and streamlined plan. A technology-centric, scalable approach will enable stakeholders to support current operations and expand their coverage to protect widely dispersed teams.

## Ensuring Operational Integrity and Continuity.

Symphia NowForce is a secure cloud-based platform that is designed to connect various parties to ensure rapid communication and enhance situational awareness for better decisions and more positive outcomes. During a disruptive event, this powerful application can help organizations remain connected no matter the location. By leveraging smart devices, as well as wireless and mobile networks, Symphia NowForce enables organizations to adapt to any situation.

Through a flexible, scalable and cohesive platform, Symphia NowForce provides a method for vital information sharing, centralized communication and response coordination.

### The technology's beneficial features include:

#### **Enables quick decisions**

by connecting various individuals for rapid information sharing.

#### **Users can leverage smart devices**

and networks for real-time interaction through video, voice and text communication.

#### **Ability to utilize device-based cameras**

and facial recognition technology to verify identities and protecting privacy when reporting sensitive information.

#### **Identify elevated stress levels**

and share healthy tips to maintain positive attitudes and provide a direct link to EAP programs.

# Meaningful Security. Going Beyond Incident Management and Response.

By utilizing smart devices and mobile networks, Symphia NowForce can increase visibility and enable multi-party collaboration across a variety of use cases. With adaptability at its core, the solution can be applied to virtually any situation, providing a much-needed lifeline in complex situations.

## Healthcare

**Hospitals** – Supporting critical care workers on the front lines by monitoring individuals' physical health, lending a helping hand for emotional support, simplifying reporting with video and voice, and providing an immediate avenue to report emerging situations.

**Medical Offices** – Enabling primary care and specialists to 'virtually' treat at-risk patients who do not require hospitalization with wellness checks, online checkups and symptom assessments, and ongoing monitoring of recovering and recovered patients sheltering at home.

## Enterprise

Dispersed organizations can maintain a direct connection to employees regardless of physical location. Monitor the health of at-risk employees, and provide a safety net for domestic situations.

## Supply Chain

For essential workers, Symphia NowForce provides a valuable link to key decision makers with immediate communication when seconds count. Monitor cargo and delivery activities to detect danger to drivers. Identify unanticipated route changes and insider threats. Maintain connection to ensure health and safety of long-haul drivers.

## Retail

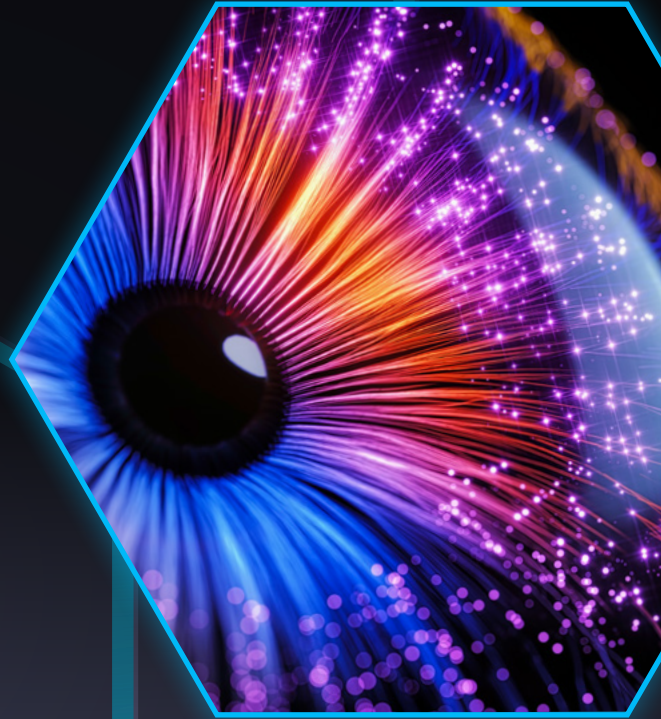

Ensure staff safety and monitor store traffic through video assets. Prevent overpopulating in stores and ensure social distancing. Identify high-demand items and provide easier access for customers. Dispatch staff to areas of concentration to ensure social distancing. Prevent looting and protect sites after hours.

# The Time is Now

Symphia NowForce empowers organizations to make quick, vital operational changes without losing focus on what truly matters most. It is a fast, effective and efficient way to connect the dots across every environment to ensure business continuity, safety and security.

With Symphia NowForce, you can focus on what matters— people, property, and mission critical processes.
